

AV Terrace Bay is an exciting and innovative company that is backed by world class strength, the Aditya Birla Group (ABG), a 35 billion \$US corporation in the League of Fortune 500 companies. With operations in 36 countries, the Group is anchored by an extraordinary force of over 133,000 employees, belonging to 42 different nationalities. As a member of The Aditya Birla Group based in India, our mandate is to produce Softwood Kraft Pulp within the North American Market. Consequently, we offer professional challenges in a range of disciplines to assist us to grow and operate. AV Terrace Bay consists of one pulp mill located in the community of Terrace Bay.

We are currently recruiting for the following: **Woodlands Manager** in our Fibre Supply Department.

Position location: Thunder Bay, Ontario

Job Description

Reporting to the **VP Fibre Supply & Government Relations**, the successful candidate will be responsible for providing leadership to all capacities of Forest Management Planning processes across multiple Crown Licenses and tenure models, and the execution of 1.5 million cubic meter/year harvest and delivery schedule to the Terrace Bay Pulp mill and multiple sawmills in the region.

Key Responsibilities Include:

The successful candidate will coordinate improvements across Fibre Supply functions in an effort to standardize and improve safety, environmental and sustainable forest management. The incumbent will also set targets for and track department performance, manage resources to attain company objectives and develop the department's annual budget and monitor it through monthly reporting on cost and volume variances to VP of Fibre Supply & Government Relations, in a timely fashion to ensure improvement. The candidate will liaise with the Ministry of Natural Resources of Ontario and other industry players to resolve issues and improve delivery of services. In addition, the candidate will build on First Nations partnerships as well as Sawmill exchanges.

Qualifications:

Bachelor's degree in Forestry or Forestry Engineering
10 years' experience in the industry
Process Improvement and Lean management would be an asset.

AVTB is an equal opportunity employer.
