

Sawmill Manager

This major Canadian forest industry employs over 1,000 people in the manufacture of lumber, value-added and specialty wood products. The company is committed to investing in strong assets, including healthy forests, advanced technology and talented people.

The Sawmill Manager will lead 150 competent and committed personnel from safety, through operations to manufacturing the highest quality lumber products. Focus will be on continuous improvement to maintain the very best customer satisfaction at the lowest possible cost in the production of 250 million fbm annually.

Relevant post-secondary education in forestry; advanced wood technology; engineering; or business is preferred. Experience will include a successful record in sawmill management in a similar role or at a secondary level in a major mill.

The company offers professional challenges to meet your talent and leadership. You will benefit from considerable advantages including highly competitive remuneration package that reflects the importance of this position; development opportunities; and career growth potential.

LEARN MORE – Forest People will provide you with all of the details on this significant opportunity. A detailed position description is available upon request. Your contact will be held in confidence until you are ready to commit.
