

## Silviculture Forest Engineer

**Iverson Forest Management Inc.** is looking for driven, motivated Silviculture Forest Engineers to join our **Cowichan Valley Team.**

As a Forest Engineer, you will be working on local projects on a regular, full time basis, Monday to Friday, coming back to the office every afternoon. The primary duties of this position will include the planning and implementation of client silviculture programs, as well as client liaison. This position may also involve the preparation of site plans and providing guidance/support to our senior forest engineers to ensure compliance with applicable plans and legislation on timber development projects.

**IFMI** was established in 1990 and has a proven track record in providing multi-phase harvest solutions on Vancouver Island and the Lower Mainland. Today we offer a full range of Forest Engineering, Standing Stem Harvesting, Private Property Resources Management, and Fire Fighting services. Our company provides a wide array of services to Industry, Government, and First Nation Clients. We take pride in delivering quality services to our clients, in a safe and efficient manner, while fostering a team oriented environment. Iverson Forest Management's headquarters is located in the beautiful Cowichan Valley.

The ideal candidate will possess the following qualifications:

- Registered Professional Forester with at least 5 years operational forestry experience;
- Experience in the delivery of Silviculture programs (reforestation, silviculture surveys, waste/residue surveys, site preparation, stand tending treatments etc.);
- Familiarity with BC Forest Safety Council Safe Certification program and implementation of safety programs;
- Experience in the preparation of Site Plans, requiring an excellent working knowledge of B.C. forestry legislation, regulations and higher level plans (e.g. FRPA, Forest Act, VILUP etc.).
- A valid BC driver's license;
- A Pesticide Applicator Ticket for both Forestry and Industrial modules is considered an asset;
- Proficiency with computer software including Word and Excel;
- Strong oral and written communication skills;
- Experience in crew supervision.

We are looking for an individual with a commitment to maintain a high level of safety, efficiency and quality in all aspects of work. This position may require some travel and occasional camp work, depending on client needs.

***We offer competitive wages, a comprehensive benefits package,  
and the opportunity for career advancement.***

We would like to thank all applicants; however only those considered for an interview will be contacted.

**Please email your resume and a cover letter to:**
