

Field Supervisor

Kim Forest Management Ltd. (KFM) is a forest consulting company with a focus on sustainable forest development. We are dedicated to providing comprehensive management and solutions for our public, private and First Nations partners. We believe in balanced stewardship and take care to account for economic, community, cultural, recreational, and conservation values.

We are seeking an experienced **Field Supervisor** to join our **Prince George** team. Our Field Supervisors organize and implement timber development projects. As such, candidates need to be flexible in building new skills and exploring diverse opportunities.

As a Field Supervisor, you may provide:

- Field duties including GPS traversing, timber cruising, timber reconnaissance, road and block layout, site plan data collection and riparian assessment,
- Timber development coordination from reconnaissance to cutting permit and road permit application,
- Client and subcontractor liaison and correspondence.

KFM offers a flexible, intellectually stimulating work environment. We promote a healthy work/life balance and flexible work schedules. Our company is small enough to know every individual by name and yet big enough to carry out large-scale projects through to completion. We encourage our employees to continually improve job satisfaction by seeking opportunities to expand business in areas they're passionate about and explore synergies with our sister company, **Madrone Environmental Services Ltd.**

At minimum, applicants will have 3 years related field experience. Preference will be given to candidates who are registered with the ABCFP.

If you are a motivated professional seeking a unique and rewarding career opportunity, KFM encourages your application. Please submit resume and cover letter to info@kfm.ca. To find out more about KFM, please visit our website (www.kfm.ca).
