---

Landmark Solutions Ltd. is a diverse natural resource consulting company providing consistent quality services to clients in a wide range of natural resource disciplines. Our clients rely on our innovative and economical solutions to conserve resource values and ensure safe and efficient operations.

Landmark is centrally located in Salmon Arm ([www.salmonarm.ca](http://www.salmonarm.ca)). From Salmon Arm, in an hours drive or less you have access to lakes, hiking/camping, world class fly fishing, mountain biking, backcountry skiing and 3 different ski hills. All this and only an hours drive to Kamloops or Kelowna and ~5 hours to Calgary or Vancouver.

There are currently many jobs available to natural resource professionals. Why choose to work at Landmark? We offer:

- 🕒 Opportunities for long term employment with increasing role/responsibility;
- 🕒 Paid training and professional development opportunities;
- 🕒 Compensation package that includes overtime, health benefits, profit sharing, and employer matched RRSP contributions;
- 🕒 Diversity of project types, locations and job functions;
- 🕒 Commitment to efficient usage of available technology – Ipads, Lidar, drones etc.;
- 🕒 Opportunities to use skills and experience working in multiple natural resource disciplines.

We are currently looking to add a **Development Forester** to our team. The successful applicant will be registered or eligible for registration with the ABCFP and have a minimum of 2 years experience. He/she will have an understanding of forestry legislation and regulations and be experienced in forestry operations. The individuals must have strong organizational and communication skill. Knowledge and experience in a range of forestry related software (Cengea, Resources, Phoenix), GIS and Microsoft Office™ would be considered an asset.

Reporting directly to the Natural Resource Manager, the Development Forester must have the proven ability to work in a competitive business environment with a focus on forestry development and project management. Typical duties include:

- 🕒 Full phase tenure management for Landmark's major licensee clients,
- 🕒 Monitoring contractual deliverables, work progress and timelines,
- 🕒 Providing expertise and support for forest development planning and operations,
- 🕒 Drafting, reviewing and/or signing/sealing of professional documents:
  - Forest Stewardship Plan / Woodlot License Plans drafting, signing/sealing,
  - Site plan data collection & document drafting, signing/sealing,
  - Appraisal preparation and submission,
  - Cutting Permit / Road Permit preparation and submission.

If you are seeking a rewarding position with opportunities for long term career advancement, then please forward your resume and cover letter to [mail@landmark-solutions.ca](mailto:mail@landmark-solutions.ca) by April 06<sup>th</sup>, 2018.
