

MillTech Inventory Management Solutions

Lumber Inventory Systems Implementer

MillTech Inventory Management Solutions, a leading supplier of lumber inventory/sales software, is expanding and requires a lumber inventory software implementer.

Candidates must either have implemented or has been a power user of a lumber inventory system.

The implementer's responsibilities include evaluating clients needs, project managing which includes defining and executing on implementation plans. Testing and troubleshooting final system setups. Provide training and end-user support.

Experience implementing or using a lumber inventory system is mandatory. Accounting or bookkeeping knowledge would be very beneficial to have. Some technical knowledge including SQL or Microsoft SSRS, and/or the ability to write queries would also be useful.

Send your resume to tneal@milltechims.com. Or call at 1 866 878 8809. Please include a cover letter. Website: MillTech www.milltechims.com
