

RUGGED MOUNTAIN CONTRACTING
FOREST CONSULTING SINCE 1995

Rugged Mountain Contracting Ltd. (RMC) is a forest-consulting firm based in Courtenay, BC. Providing solutions to diverse forest operations, from large corporate clients, government agencies, and First Nations groups through to small woodland owners, we have specialized in forest engineering for over 22 years. Our team of professionals brings a diversity of skill sets and company culture that has built the foundations and strengths that allow us to meet the varied needs of our clients.

The individuals we are seeking are flexible, diverse in skill sets, committed to quality and cognizant of the need to stay current to the dynamic changes happening in our industry and profession. They have an affinity for technology and strive to increase their skill sets to bring value to their individual teams, and the company as whole. They value a supportive working environment that fosters trust, camaraderie, and team building, as well as the opportunity to work in and be part of the coastal forest industry.

The following positions are available immediately:

- **Senior Layout Engineers (2) - Minimum 6 years coastal layout**
- **Assistant Engineers (2) - Minimum 2 years coastal experience**

We have positions available locally on Vancouver Island and the BC coastal mainland. We offer flexible shifts, above- industry average wage compensation, and an extended medical/dental package. Continual professional development is a foundation to our strengths, and those demonstrating the attitude and interest will benefit from formal training opportunities.

Duties include:

- *Cut block and logging road recce, field layout, surveying, mapping, and design*
- *GIS mapping, LiDAR interpretation & analysis, and database management (Cenfor, Cengea, etc.)*
- *Various associated administrative duties including road and cutting permit preparation*
- *Client Liaison*

Each candidate should have the following:

- *A strong commitment to safety*
- *Strong organizational and communication skills*
- *The ability to work both independently and within a team environment*
- *The ability and flexibility to work periodic shifts in a camp situation.*
- *A strong knowledge of MS Office, ArcMap, and RoadEng Software, particularly in LiDAR applications*
- *Proficient with various GPS systems (Trimble, Mesa 2, total station)*
- *Familiarity with tablets (iPad), tablet apps, and data storage/management in a cloud service*
- *Valid Class 5 drivers license*
- *Level 1 OFA*

Preference will be given to applicants who are registered or eligible for registration with the ABCFP.

Email resumes to hr@ruggedmountaincontracting.com. Thank you for your interest, but only those selected for an interview will be contacted.
