POSITION OVERVIEW:

The GIS Analyst will lead or support timely completion of GIS projects and initiatives such as GIS analysis, map production, data management, data loading & transformation and other support services across various Tolko woodlands business units. The position requires efficient management of work priorities while ensuring quality control, standardization, continuous improvement and documentation requirements are achieved. The ideal candidate for the GIS Analyst position will have excellent computer, organizational, interpersonal communication skills and a willingness travel and work in various locations as needed.

QUALIFICATIONS:

- Post-secondary education in GIS and / or Forestry
- Working knowledge of the ESRI suite of Desktop and Enterprise software
- Minimum 3 years of related experience, ideally in Forestry
- Demonstrated focus on achieving business results
- Proven skills in planning, organization, communication and problem solving
- Proven ability to work both within a team environment and independently with little supervision
- Experience with development of scripts (i.e. Python), models (i.e. model builder), ESRI Web Applications would be a considered an asset.
- Experience with LiDAR data and Orthophoto Imagery management would also be considered an asset.
