

CONSTRUCTION LEAD – FORESTRY

DIVISION: CONSTRUCTION & ACCESS

LOCATION: EDMONTON, AB

COVID-19 Information:

ATCO is committed to providing and maintaining a safe environment for our employees, contractors, partners, and customers. As part of this unwavering commitment to safety, all ATCO employees and contractors are required to be fully vaccinated against Covid-19.

Position Summary:

Always there. Anywhere. That's us! We are committed to delivering inspired solutions for a better world. We care about our communities, we care about each other, and we care about showing up for those who need us. We value and encourage different perspectives and we have the courage to do the right thing, even when it's hard.

This job class is responsible for the planning, execution, coordination, scheduling, monitoring, inspection and quality control of forestry and construction access related work, either contracted or completed by internal employees. This position ensures that work is completed in a safe, efficient and expeditious manner.

We're looking for someone who cares about their work and strives for more each day. Someone who challenges the status quo, embraces change, and thrives in a collaborative work environment. If you are someone who approaches work with passion, curiosity and the courage to innovate, then this role is for you.

What You Get To Do:

Under general supervision, employees perform various duties within their area of assigned responsibility.

Typical duties may include but are not limited to:

- Provide leadership and ensure adherence to Health & Safety principals, practices, work methods, and standards.
- Participate in project planning site visits, team meetings, route/site selection, and collaborate on potential landowner / indigenous relations concerns.
- Monitor construction progress, estimate resource requirements, escalates concerns, and schedule work in accordance with the approved project schedule.
- Liaison on design, site issues, and scope of work.
- Ensure completion and submission of construction closeouts and project turnover packages.
- Participate in and/or responsible for the development of cost estimates, contracts, and project bid packages.
- Monitor and ensure completion of work in accordance with engineering specifications, survey drawings, standards, policies, practices, release packages, 3rdparty agreements, and terms of contracts.
- Provide updates on status, budgets, forecasts, operations, and constructability.
- Review and approve contractor LEMs, timecards, invoices, contractor PCRs, change requests, quality control, etc.

Qualifications:

- Completion of a post-secondary degree in forestry or environmental science or a technology (Technologist) diploma from a recognized Canadian university or institute of technology.
- Registration as a Registered Professional Forester (RPF) or a Registered Professional Forest Technologist (RPFT)
- 5 years project execution experience, in forestry operations
- Incident Investigation process experience
- Contractor and Contract management and administration experience
- Proven experience in the creation of written reports/status updates
- Must be able to work effectively in a fast-paced environment.

Continued...

- Demonstrated professionalism and interpersonal skills with the ability to establish excellent working relationships.
- Strong verbal and written communication skills with the ability to document and organize project communications.
- Travel and work away from home base will be required.

We would like to thank everyone for their application; however, only those being considered for an interview will be contacted.
