

APICAL FORESTRY

Forestry Field Staff

Are you looking to extend your field season? Full time positions available until the end of December.

We are a Grande Prairie based company providing a wide array of forestry and ecological services across Alberta.

As a leader in the silviculture and reforestation industry, we pride ourselves on the quality of our work and the strong relationships we have with our clients.

Dedication to our people and an emphasis on workplace safety are integral to our success.

What the job looks like

Large-scale forest inventory data collection:

Pre-harvest silviculture prescriptions, installation and planting of climate change progeny trials, establishment and measurement of Permanent Sample Plots, Realized Gain Trials, and Regenerated Lodgepole Pine trials

Skills + Experience:

- Basic training in forestry measurements, experience driving on forest roads, ATV experience, and a valid driving license (non-GDL).
- A safety conscious attitude.
- Enjoy working outdoors.
- Enrolled or graduated from a forestry, natural resource, or environmental program.
- Must provide personal field gear (boots, cruiser vest, proper outdoor clothing)
- Strong teamwork skills and an ability to get along with others.
- Willingness to learn new things and be adaptable.
- Ability to work independently and take initiative.
- Excellent attention to detail and problem solving skills.
