

Forestry Supervisor – Northern British Columbia – Mackenzie

Finlay Forest Management offers Forestry and other consulting services based out of the northern region of British Columbia. Our clients include Government, Industry, and Indigenous clients in forestry and other natural resource sectors. We aim to offer a challenging and rewarding career experience in a respectful, safe, and healthy work environment.

Finlay is more than just another forestry consulting company. We directly manage Tsay Keh Dene's forest licenses, allowing us to act both as a licensee and as a contractor. This balance allows us to provide our own constant and stable work and a diversity of opportunities that other companies cannot offer.

Position Summary:

We are looking to fill a full-time Supervisor who will work closely with other forestry professionals in managing, conserving, and harvesting forests. The candidate will organize and implement timber development projects as well as supervise forestry staff and liaise with internal and external key stakeholders. The successful candidate will assist our current team of professionals with carrying out a broad array of forestry services in a manner that contributes to the balance of sustainability and demand for wood products. This role will cover both field and office work environments.

Note: work projects are located throughout the Mackenzie District and may require camp shifts.

Duties may include (but are not limited to):

- Field work such as layout and cursing
- Oversight of field crews
- Mentorship and coaching of field staff
- Project coordination with other professionals
- Preparing project reports, site plans, appraisals, cruise plans
- Coordination of timber development from reconnaissance to cutting permit and road permit application
- Maintaining client and subcontractor relations
- Attend and conduct performance and safety audits
- Assist with maintaining a safe and healthy workplace

Qualifications

- Valid class 5 driver's license required
- 5 years plus of previous experience in related work
- Must be able to demonstrate competencies in all phases of timber development including supervision
- Post-Secondary education in the natural sciences and/or technical forestry is preferred
- Strong preference given to those able to register with ABCFP
- Ability to work under pressure with tight deadlines, and attention to detail
- Willingness to travel and work in an outdoor environment in remote locations
- Able to work cooperatively in a team, but also independently with little supervision
- Must operate with professional independence and strong communication
- Excellent verbal and written communication skills using different media
- Safe work mindset is required

Benefits/Perks

- Full time work in a safe work environment
- Competitive compensation package including benefits
- On-going professional mentoring and training
- Working in a larger professional group with exposure to a broader forestry and operational logging context
- Diverse range of Industrial, Indigenous and Government clients
- Progressive and innovative company

Location Perks

For those who love to live and play where they work –The Mackenzie regions offer a bounty of recreational activities including fishing, hunting, hiking, mountain biking, running, skating, snowshoeing, cross-country skiing, downhill skiing, curling, ATV, snowmobile, horseback riding, boating, camping, music/art festivals and more!
