

Sawmill Operations Manager

This successful growth oriented company operates multiple mills and has an extensive fibre supply from private land holdings and public tenure.

We are seeking an accomplished Sawmill Operations Manager who has a 'hands-on' operating style with a capacity to instil a sense of urgency with all personnel. While you can do the paperwork, your preferred focus is being in the mill providing a continuous drive to maintain and improve employee safety, operational competitiveness and profitability. You may have a background in both maintenance and production supervision but certainly will have an extensive knowledge of optimization equipment and process.

Our client offers a competitive remuneration package; benefit and retirement programs; and an opportunity to be part of community that provides a preferred lifestyle location; quality educational facilities and very reasonable housing costs.

Interested persons should forward resumes or for further information, please contact:
