

LOGGING MANAGER – ARIZONA, US

An experienced Logging Manager is required for a company operating in northern Arizona, US in the largest Ponderosa Pine forest in the world. The company has two sawmill operations and in the process of constructing an engineered wood products plant near Flagstaff, Arizona to produce a wide variety of finishing and decorative wood products.

Preferred Candidate Qualifications:

- A successful record in logging operations supervision providing leadership in safety; team building; innovation and proactivity
- Competent knowledge of harvesting phases and costing
- Excellent computer skills
- Ensure staff and contractors work in a manner that eliminates environmental and safety incidents

In addition to the above qualifications, Candidates must have either of the following:

- US citizenship
- A current US working visa
- Canadian citizenship with a bachelor degree in forestry or forest engineering from a Canadian university

The company offers a highly competitive remuneration and benefit package.

Flagstaff, population 140,000, is considered to be one of the best residential locations in the nation. Reasonable housing costs; excellent services and educational facilities; proximity to numerous natural wonders including the Grand Canyon; all provide the very best lifestyle.
