

Power Engineer – First Class

This large industrial operation in the Greater Vancouver area employs over 400 people and has assets exceeding \$250 million. This facility produces a wide variety of commodity and engineered products for clients around the world. Consistent with their constant improvement planning, the company is currently undertaking significant asset improvements.

The company has an immediate opportunity for a First Class Power Engineer. Primary candidate qualifications:

- First Class Power Engineer certification
- A successful record of power engineering management in an industrial operation
- Computer competence / relevant experience in Microsoft and operating systems
- Deploys best practices, replicates processes and continuous improvement as part of the work ethic

This Power Engineer position is of significant importance to the operation's well-being and the remuneration / benefits range reflects this important senior position.
