

## General Manager – Southcoast Custom Reman

Southcoast Reman Ltd. (Southcoast), a long established custom remanufacturer located in the Maple Ridge area of British Columbia, provides services to local, regional and international wood industry clients. A competent and experienced employee team provides lumber drying and diversified remanufacturing services using a full complement of equipment including seven kilns; Stenner resaw line; twin band resaw system; Stetson-Ross planer and Weinig moulder.

Southcoast is now preparing for a significant expansion in equipment and services to better serve existing and new clients. We are seeking a creative and innovative General Manager who has the experience / skills to manage the existing operation, but more importantly, has the vision to create the opportunities to build the company into the future.

The successful candidate will bring the following skillset:

- Successful lumber reman / value added / engineered wood management experience with knowledge of kilns, custom reman and engineered wood products equipment
- A team leader oriented to building an atmosphere where the team succeeds and delivers daily through the Values of the Company
- The ability to build a high functioning maintenance and production team
- Financial and budgeting experience in an operational setting

The remuneration package reflects the importance of this position and will interest qualified and successful reman management personnel.

Interested persons should forward resumes or for further information, please contact:
