

CONTROLS ENGINEER / PLC TECHNICIAN

Rockshield Engineered Wood Products operates a plywood overlay mill at Cochrane, Ontario. The majority of panels are hardwood plywood to which Rockshield adheres a hardwood veneer such as oak, cherry, maple, birch etc. as an overlay to produce high quality ready-to-use panels. Visit www.rockshieldsdewp.com for the complete story on Rockshield and their superior products.

The Controls Engineer / PLC Technician is pivotal in designing, implementing and maintaining automated control systems to optimize production processes and improve plant efficiency. The ideal candidate will have high competence in programmable logic controllers (PLC), automation and system integration.

Candidates will have a degree in Electrical Engineering, Automation Technology or related field. Proficiency in programming PLCs (such as Allen-Bradley, Siemens, etc.) designing HMIs; knowledge of SCADA systems, and experience with networking, communication protocols and data acquisition is necessary. Experience in the wood products industry or related manufacturing environments is highly desirable. A complete position overview and preferred qualification listing is available upon request.

A highly competitive remuneration package is offered.

Visit www.cochraneontario.com to learn about Cochrane, Ontario, population 5,500. Cochrane is an hour drive from Timmins, population 45,000.
