

SILVICULTURE TECHNICIAN

SOUTHERN INTERIOR BC

At Forsite we will excel by being a flexible, adaptable, people-oriented business that grows and profits by creating value for our customers and opportunities for our employees. We will apply our skills, knowledge and technologies to be the best forest management company. We value fostering and sustaining an environment of diversity and inclusion where everyone can reach their full potential.

Forsite is looking for **Silviculture Technicians** to be based in **Salmon Arm, Kamloops or 100 Mile House**, within the Southern Interior of British Columbia. These positions are flexible and have opportunity for either full-time, seasonal (April to November), or summer terms (available for forestry students seeking summer employment).

WHY FORSITE?

- An annual strategic planning process drives our business. We involve employees across the organization at all levels to gather input; driving accountability to shareholders and senior management.
- Entrepreneurial, business unit structure, regionally based across Canada.
- We offer employees flexible work schedules, a diverse and inclusive workplace, with opportunities for professional development.
- Forsite is a privately owned company, in business for over 35 years.

Forsite is looking for Silviculture Technicians to help grow our silviculture program throughout the Southern Interior of British Columbia to meet overall company growth targets.

The ideal candidates will have field experience conducting silviculture surveys, planting supervision, planting pay plots, project management and prescription development. Additional skills and qualifications as an asset include post-secondary education in a forestry program, Silviculture Surveyor Accreditation, registered with the ABCFP or enrolled as a FIT or TFT.

WHO WE'RE LOOKING FOR

WHAT WILL YOU DO?

Silviculture Technicians will be responsible for conducting silviculture field projects including:

- Tree Planting Implementation,
- Silviculture Surveys,
- Treatment Area Layout,
- Field Assessments & Reporting, and much more!
