

**Request for Proposals
Scaling Services Contract
Fort St. James Forest Products**

As part of its new sawmill operating plans, Fort St James Forest Products is seeking proposals from qualified contractors (or entrepreneurs willing to establish a new log scaling business) for performing a Scaling Services contract at #300 Takla Rd. Scaling Services activities will include **weigh scaling trucks, piece scaling and log quality assessments for selected samples, scaling personnel management, quality control, associated weigh scale/scale house cleaning and maintenance, reporting and associated contract administrative tasks.**

Once the new FSJFP sawmill is fully operational the contractor can expect to weigh and piece scale ~ 450,000 m³ per year over a ~ 180 work day logging season. There will also be additional scaling related work during the off season(s). Based on performance FSJFP is prepared to enter into a multi-year scaling services contract.

Contract work is expected to commence late fall 2021.

For more details please contact either:

Sandra Valk at 250-996-1240 or Eric Hannula at 250-692-4556.

If interested in this exciting new opportunity please email your proposal to:

EricHannula@hamptonlumber.com. Please include your Company profile outlining qualifications, related work experience, and resumes of scaling staff that will be utilized.

Deadline for providing proposals is September 17, 2021
