

Silviculture Surveyor

Location: Prince George, Fort St. John

Salary: \$25.00 - \$30.00 per hour (commensurate with experience)

Position: Casual

Apply: www.ccisolutions.ca/careers

Company Overview

Geoterra Integrated Resource Systems Ltd. is a leading consulting firm based in British Columbia that specializes in forestry, environmental, and natural resource services. We pride ourselves on delivering high-quality, safe, and practical solutions across the province. Our reputation is built on collaboration, technical expertise, and strong Indigenous partnerships. At Geoterra, we offer a positive and professional work environment with meaningful career growth and development opportunities.

Position Overview

Geoterra IRS is seeking a qualified Silviculture Surveyor to join our forestry services team in Prince George, British Columbia. This field-based position will support silviculture surveys and related forestry programs throughout the B.C. Interior.

Job Highlights

- Competitive Compensation: \$30.00- \$40.00 per hour based on experience.
- Travel & Per Diem: Paid travel expenses, accommodations, and daily per diem for field assignments.
- Professional Growth: Support for training, certifications, and payment of professional dues.
- Diverse Work: Office and field-based work across a range of project types and client profiles.
- Team Environment: Join a positive, safety-focused team that values integrity and innovation in forestry

Key Responsibilities

- Complete regeneration delay, stocking, free-growing, and other silviculture surveys in accordance with current B.C. procedures and project requirements.
- Collect accurate field data, assess forest health and site factors, and confirm survey-unit stratification.
- Compile survey results, prepare maps and field documentation, and support clear, defensible recommendations.
- Perform quality assurance on survey data and deliverables before submission.
- Coordinate with project managers, clients, and field crews while meeting safety, schedule, and quality expectations.

Qualifications

- Accredited Silviculture Surveyor designation in British Columbia is preferred; candidates working toward accreditation may be considered.
- At least one field season of experience completing regeneration delay, stocking, or free-growing surveys is preferred.
- Knowledge of B.C. silviculture survey procedures, stocking standards, forest health, and applicable forestry practices.
- Experience collecting, compiling, and quality-checking field data using GPS, tablets, GIS applications, and forestry software.
- Valid Class 5 driver's licence and ability to work safely and independently in remote terrain.
- Strong navigation, observation, communication, organization, and report-writing skills.

How to Apply

If you are excited by the opportunity to take on this challenging and rewarding role, please submit your cover letter and resume (in PDF format) via email to hr@ccisolutions.ca.

Please include "Silviculture Surveyor – Your Name" in the subject line of your email. Application Deadline: This posting will remain open until the successful candidate is hired (applications will be reviewed on a rolling basis). We encourage interested applicants to apply early. We thank all applicants for their interest in joining our team. Only short-listed candidates will be contacted for an interview. We look forward to hearing from you!
