

Senior and Intermediate Forest Engineers

- At HAF we reward hard-working employees with **wages above industry standards**.
- Our wages are commensurate with **performance and experience**. If you are an above average employee that is being compensated the same as everyone else, HAF will be a refreshing change.
- Our senior engineers are **industry leaders** that are eager to pass on their expertise to the next generation. If you think your professional development has stalled, we want you at HAF.
- We have been offering **flexible office hours** within the comfort of your own home since 2010. If you are tired of the daily commute to the office, the HAF virtual office is the place for you.
- Our employees choose how many holidays they take in a year. If you are looking for a **work / life balance** that suits your lifestyle, you should apply to HAF.

HAF Forest Services Inc. is a professional and dynamic resource consulting company, delivering integrated forest management and development services to clients throughout northern Vancouver Island. We specialize in multi-phase forestry services covering the full scope of forest management, including timber reconnaissance and inventory, road location and design, timber development, silviculture site plans, and operational mapping.

We have immediate openings for senior and intermediate forest engineers. All positions are permanent and full-time. These positions require office work as well as physically demanding fieldwork in Northern Vancouver Island and Mainland BC. The candidate has the option to be based anywhere on Vancouver Island with shift work based in various locations. We also offer full-time accommodation in Holberg, BC.

Qualifications:

- Senior Engineer: Minimum 5 years of experience in coastal forest engineering.
- Intermediate Engineer: Minimum 2 years of experience in coastal forest engineering.
- Additional Requirements:
- Post-secondary education in forestry or have significant experience in this field.
- RPF, RFT or eligibility with FPBC is an asset.
- We are an asynchronous organization without a head office, so candidates must be self-starters.
- Be a team player with a strong commitment to safe work procedures.
- Have excellent communication and problem-solving skills and be able to adapt to quickly changing work plans.
- Must be physically fit and willing to work in variable weather conditions.
- Good written and verbal communication skills.
- Experience with RoadEng, GPS/GIS technology, QGIS, ArcMap, and MS Office is an asset.

Please apply in confidence by emailing your cover letter and resume with references to:

info@haf-fs.com

Applications will be accepted until positions have been filled. We thank all applicants for their interest; however, only those selected for an interview will be contacted.
