

Mountain Pine Beetle Surveyors and Quality Inspectors

Infinite Forestry Consulting Ltd. is a forest management based consulting company based out of Grande Prairie, Alberta. We have been in the business of supplying equipment and human resources to local industries since 1995 and now count Municipal and Provincial governments as our largest customers. Our primary business revolves around vegetation management in a variety of forms including:

- Mountain Pine Beetle Survey, Control and Quality Inspection
- FireSmart Planning
- Implementation of Operational Forest Fuels Reduction
- Right-of-Way Clearing and Brushing

We are currently hiring Mountain Pine Beetle Survey and Quality Inspection personnel for the upcoming winter season for work throughout the province.

These are field based positions which require and ability to work through a wide variety of conditions and still focus on safety, quality and production. Other valuable assets would include the ability to efficiently navigate with maps and GPS, operation of ATV's and snowmobiles, and a valid Class 5 driver's license.

Remuneration is production based for the MPB Survey work and Day Rate for the Quality Inspector positions.

Please apply in confidence by emailing your resume and cover letter to: brian.reid@infiniteforestry.ca
