

Company Operating name: Integrated Operations Group Inc. (IOG)

Business Address: 1950, 14th Avenue, Campbell River, BC V9W 4J1

Location of Work: 1401 Lakeview Drive, Quesnel, BC, V2J 4K3 (office) - field work throughout the Cariboo region

Description of company:

Integrated Operations Group Inc. (IOG) is a growing full-phase forest development firm with operations across BC tailoring primarily to the forestry, construction and utility industries.

We specialize in innovative processes to complete challenging forestry projects with a focus on value rather than volume. Our team consists of professional foresters, equipment operators, fallers, tree climbers, forest engineers and other resource professionals.

THE OPPORTUNITY

IOG is seeking a motivated, self-starting individual to fulfill the role of Harvesting Supervisor to join our team. Reporting to the Operations Manager, the Harvesting Supervisor is a critical role that helps to oversee and contribute to the production and safety of our day-to-day commercial thinning and fire abatement projects. The ideal candidate will be able to provide required job supervision as well as oversee work quality and safety, train and educate other operators but also operate the machines productively when time and daily tasks permit. The position will be based out of Quesnel, BC. Accommodations can be provided if needed, though ideally the candidate will be local and/or willing to relocate.

Job Title: Harvesting Supervisor (NOC 82010)

Wage: \$83,200 and \$110,000/annually

Offered benefits: participation in our performance bonus program, company truck, comprehensive benefits package, matching RRSP contribution and other compensation

Terms of Employment: Full-time, permanent (40 hours per week)

Language of work: English

Number of available positions: 1

How to apply:

Contact: Suzanne Bonner

Email: support@iogl.ca

Job Duties:

- Support the Operations Manager in the oversight and execution of all aspects of our commercial thinning and fire abatement projects
- Develop and document effective work and safety plans

- Develop and implement strategies to maximize the efficiency and production of crew and equipment
- Operate various wheeled harvesters and forwarders in commercial thinning and/or fire abatement Projects
- Work with mechanics and/or subcontractors to troubleshoot mechanical issues and maximize equipment uptime.
- Update Operations Manager on production data, timelines and scheduling as needed
- Train operators on commercial wheeled harvesting equipment and supervise their work

Employment Requirements/work experience:

- Have a proven track record of forest harvesting supervision in thinning operations.
- Have the ability to operate and understand commercial thinning equipment and processes.
- Be an independent, self-starting and motivated individual.
- Be an effective communicator.
- Have a Class 5 driver's license.
- Experience with interior log grades and sorts is an asset.
- Must have proven 6-10 years of professional experience in commercial thinning operations using wheeled harvesting equipment
- Have the ability to train other operators on Wheeled-Harvesters in thinning applications and monitor the overall quality.
- A degree in forest is an asset
