

Ongoing opportunities for: **Forestry Technicians**

Integrated ProAction Corp is an established natural resources consulting firm in Kamloops, operating and providing superior service and deliverables since 1992. We are a diverse company that offers their valued employees the opportunity to gain experience in all phases of the forestry industry. As well, opportunities arise with our diverse portfolio of clients in other natural resource industries on a regular basis and we strive to include staff in these challenging and exciting career broadening projects.

We have ongoing opportunities for Junior, Intermediate and Senior Forestry Technicians based out of our sunny Southern Interior office.

Ideal applicants are self-motivated, maintain a positive attitude and willingly participate in forming a positive contribution to the corporate team. Preference will be given to those applicants with a forestry or natural resources degree and or diploma and eligible for registration with, or are in good standing with the ABCFP.

Junior Technician: Summer students enrolled in a Natural Resource Program looking to compliment their ongoing education with hands on field work.

Intermediate Technician: Intermediate positions are for individuals with a natural resources diploma or degree and minimum of 3 years of experience. The ideal candidate has a desire to build upon their foundational forestry skills while growing their career in the industry. This individual would have a good understanding of full phase timber development and be willing to assist in mentoring less experienced co-workers to develop the team.

Senior Technician: Senior Positions are for individuals with either a natural resources diploma or degree with a Professional Designation (RPF or RFT) and a minimum of 5 years of experience in the Forest Industry. The ideal candidate would have a passion for forestry and the desire to lead a small crew and liaison between the forestry supervisor and the field crew as well as managing schedules for day to day activities.

Experience is required but not limited to the following activities:

- Forest Licence management planning, tracking and reporting,
- Full Phase Development and Planning
- All aspects of timber assessments,
- All aspects of road and cut block design (various systems)
- Data collection and preparation of Site plan and related assessments
- Road deactivation prescriptions and /or assessments,
- Level 1, 2 and/or 3 road traverse data collection,
- Cengea/LRM database entry and tracking,
- Timber cruising and compilation
- Understanding of appraisal information
- Silviculture surveys, planting supervision and/or auditing assessments and/or RESULTS experience,

All applicants must have a valid drivers licence, eligible to work in Canada and be physically able to fulfill the demands of field positions. Valid First Aid or other safety certifications would be an asset. **Please note that you may be subject to drug and alcohol testing in safety sensitive positions.**

We offer competitive wages, extended benefits and a retirement plan for permanent full time employees.

Applications will be received via email: resumes@intpac.ca or fax 250-828-2183 until positions are filled.
