

LAKESIDE FORESTRY & PROPERTY MANAGEMENT

After 36 years in Forestry its time to slow down. I am looking for a Certified Managed Forest Plan Approver to take over my 250 active mftip customers. I

have a detailed Financial Report prepared that shows the current value of Lakeside Forestry. Most of my active customers have been working with me for over 20 years and are friends as well as customers.

Many of my customers properties have exceptional forests growing on them and they have been managed to produce high quality hardwood sawlogs and veneer logs. Several of my customers properties are over 1000 acres in size.

Financial Report Available on request.

36 Years of Forestry & Natural Resouces Management Experience
