

Little River is currently hiring to fill Forestry Planning positions in our Campbell River operations. The candidate(s) would be home nightly Monday through Friday.

Little River is a private consulting firm that specializes in forest management on Vancouver Island. Our team of Forest Professionals based out of our Black Creek office pride ourselves on our work ethic and ability to produce quality work, safely. We work for a variety of clients including large licensees, private landholders, and woodlot owners.

What we offer:

- Home each night
- Excellent team environment
- Competitive salary
- Employee benefits program
- Local work

Position Details:

As a member of the Little River team you are a self-motivated individual who works well both individually and as part of a larger group. You have excellent problem-solving skills and consider yourself detail oriented. In these positions you would be responsible for completing forest engineering work in both the field and office. Tasks would vary by experience level but could include, completing and/or supervising block and road layout, stream classification, setting package compilation, forest mensuration and site plan data collection.

Qualifications:

- Able to conduct yourself in a professional manner with coworkers and clients.
- Work well in a team environment.
- Have excellent communication and problem-solving skills.
- Capable of working outdoors in challenging terrain and weather conditions.
- Possess a valid driver's license.
- Proficient with Microsoft Office.
- **Prior Forest Industry experience is not a necessity**

Additional Assets:

- Coastal layout experience.
- Occupational First Aid Level 1 or 3.
- Registered or eligible for registration with the ABCFP

We are looking to fill these positions as soon as possible. Only shortlisted candidates will be contacted. Please submit your cover letter and resume in confidence by email.
