

Optimum Resource Management Ltd.

Forestry Consulting Services

Optimum Resource Management Ltd. (Optimum) is a company based out of McBride, British Columbia, providing forestry services to industry, private land holders and government. Optimum is responsible for developing timber volumes for multiple clients as well as our sister company, Skyline Resources Ltd. (Skyline). Skyline provides grapple yarding, steep slope ground-based harvesting as well as, road construction services in the Prince George Timber Supply Area. The close working relationship with Skyline enables Optimum's employees to gain valuable knowledge and experience through direct feedback of harvesting, hauling and construction. Optimum strengths include a strong background in forest engineering, management of harvesting and construction on steep slope terrain, as well as unstable terrain.

Optimum is currently recruiting people to fill up to **4 field positions** for multiphase timber development, timber reconnaissance evaluation, riparian assessments, surveying, ecological assessments, bridge inspection and as-built drawings. These positions include full time and temporary opportunities and are open to both senior and junior experience levels with a preference to those that have a degree or diploma in Forestry Sciences or Natural Resource Management. People with an interest in forestry and have a degree or diploma in other disciplines are welcome to apply.

Our operations extend along the Rocky Mountains of BC from Kinbasket Lake near Valemount, to MacKenzie. The positions include an industry competitive remuneration package, and an excellent career growth opportunity. Majority of the work will be based out of the communities of McBride and Prince George and we are currently looking for people to live and work out of both communities. Work out of other communities should be expected, accommodations and live out is provided.

Preferred qualifications:

- Registered professional foresters, registered professional technologists, and special permit holders.
- Registration or ability to register with the ABCFP. Those individuals working towards or have a degree or diploma in natural resources are preferred candidates.
- Forest engineering, timber cruising experience.
- Forest operations with Cable harvesting and construction operational knowledge.
- Working knowledge of MS office, Roadeng.
- 3+ years work experience
- Valid Drivers license with a clean abstract.

In addition, all candidates should demonstrate the following:

- Team player and has a professional service attitude with good quality workmanship and thoroughness.
- Passion for forestry, working outdoors and hiking in steep mountainous terrain.
- Initiative and perseverance.
- Ability to work independently under limited direct supervision from time to time.
- Safety conscious - understands and familiar with WCB regulations and ForestSafe.
- Good problem-solving skills and the ability to adapt to changing conditions and schedules.
- Good verbal and written communication skills.
- Good physical and mental stamina for working in the field and in the steep mountainous terrain.
- Willingness to work in all types of weather conditions and hike through dense natural forests.

Applications will be accepted until the positions are filled. Please email applications to Randy McFarland, RFT at orm.mcbride@gmail.com. Optimum Resource Management Ltd. would like to thank all candidates for their interest and applications. Only those selected for an interview will be contacted.
