Optimum Resource Management Ltd. is currently hiring Forest Engineering Technicians for **multiphase timber development**. These positions are suitable for individuals that have professional designations and or non-professionals interested in learning about forest operations and timber development. The work is primarily field based but does include some office-based duties and include provisions for travel and over-time. We have recently completed a salary review and offer great rates along with a benefit package that makes it attractive to live and work out of McBride.

The positions for hire include both full time, permanent salary for 1 senior forest professional with 3 or more years' experience and 2 junior forest professionals or non-professionals as full time, permanent salary and full time, temporary depending on the qualifications and requirements of the individual. A preference to those that have a degree or diploma in Forestry Sciences or Natural Resource Management. On the job training and mentorship will be provided to candidates who demonstrate a willingness to learn and advance their careers in forestry.

Our operations are primarily based out of McBride, B.C. but may include other areas within the central interior of B.C. Majority of the work will be based out of the community of McBride.

**Preferred qualifications:**

- Registered Professional Foresters, Registered Forest Technologists, Natural Resource Professionals are preferred. Some positions open for Forest Technicians, Affiliated Forest Professionals, Transferring Forest Professionals and Trainees.
- To live in or near the town of McBride, B.C. We will give consideration to individuals who prefer to live in Prince George, B.C. or other areas as long as they are willing to stay during the week in McBride while working.
- Preferred experiences and skills relating to multiphase, forest engineering, timber cruising, forest operations with an emphasis on grapple yarding and steep slope harvesting, good understanding of forest road construction principles.
- Working knowledge of MS office, Q-GIS/ArcGIS, Roadeng, visual analysis -VNS Studios
- 2+ years work experience
- Valid Drivers license with a clean abstract.

**In addition, all candidates should demonstrate the following:**

- Team player and has a professional service attitude with good quality workmanship and thoroughness.
- Passion for forestry, working outdoors and hiking in steep mountainous terrain.
- Initiative and perseverance.
- Ability to work independently under limited direct supervision from time to time.
- Safety conscious - understands and familiar with WCB regulations and ForestSafe.
- Good problem-solving skills and the ability to adapt to changing conditions and schedules.
- Good verbal and written communication skills.
- Good physical condition, a willingness to work outdoors and able to withstand the rigors of a forest environment.

Applications will be accepted until the positions are filled. Please email applications to Randy McFarland, RFT at [orm.mcbride@gmail.com](mailto:orm.mcbride@gmail.com). Optimum Resource Management Ltd. would like to thank all candidates for their interest and applications. Only those selected for an interview will be contacted.
