your  
future

The Ministry of Environment takes a team-based approach to protecting Saskatchewan's environment for the wellbeing of the province, its people and its future. We use science-based solutions and environmental laws to help safeguard communities and to protect our air, land, water and habitat. We are committed to high citizen and client satisfaction through workplace excellence, continuous improvement and innovation. Our leaders demonstrate the Government of Saskatchewan's commitment to excellence which includes ensuring workplace health and safety.

### Your Opportunity

The Saskatchewan Ministry of Environment has an employment opportunity in the Forest Service Branch located in Prince Albert. As a member of the management team, you will support the sustainable growth of Saskatchewan's forest sector by leading the people and teams responsible for supporting branch wide compliance, forest health and silviculture programs. You will ensure that these programs support a results-based, service-oriented, regulatory approach to attaining desired forest management outcomes.

### Your Key Responsibilities

- Lead technical teams and provide oversight of staff who work together to develop and execute the province-wide programs.
- Foster an inclusive and diverse work environment that promotes mental and physical wellbeing for our team.
- Provide forest program direction and forest management expertise to other government ministries, and support senior ministry staff on forest management and policy issues.
- Take a broad-scale view of unit programs and processes including the development and implementation of long and short-term strategies to achieve the government's focus on efficiency, accountability and results-based regulatory requirements.

### Your Competencies and Skills

- Demonstrated ability to lead, support, create and sustain a team environment that enables staff to achieve results and to develop in a professional capacity. This includes building organizational capacity at the Forest Service for the future.
- Committed to personal and organizational safety.
- A fundamental understanding of project management and policy development.
- Knowledge and understanding of how to balance environmental, social and economic values within the forest sector.
- Knowledge and understanding of accountability processes, risk management and effective change management to lead strategic initiatives.
- Established skills to effectively manage human resources, technology, fiscal responsibilities and confidential information.
- Ability to communicate complex issues clearly and credibly with widely varied audiences using two-way communication to gain others' input and understanding.
- Preference given to those who have education and/or experience in the forest sector.
