

Forestry Technician

Based out of Duncan, BC, Silvifor Resource Consultants is a dynamic, silviculture consulting group operating on Southern Vancouver Island. We are seeking a highly motivated individual who is looking to gain experience and become a part of a team responsible for managing approx. 120,000 ha of Private Forest land, from the post-harvesting phase to Free Growing. As a Forestry Technician, you will be involved in any or all the following activities:

- Reforestation plans
- Post-harvest assessments, debris management activities, and slash burning
- Roadside maintenance and deactivation
- Tree planting quality control and supervision
- Information Management, GIS
- Conduct survival, stocking and brushing surveys
- Fire Protection
- Join field crews on occasion to perform various field applications including:
 - Browse cone installation / maintenance
 - Tree planting
 - Chemical and manual brush control
 - Field layout
 - Invasive species control

Requirements:

- Must be physically fit, organized, and able to communicate effectively.
- Ability to work independently
- Possess a valid Class 5 driver's license.
- A minimum of one year surveying experience
- Planting or pay plot experience

The following are not required but would be an asset:

- Certified and able to operate a power saw.
- Level 1 First Aid certificate.
- Forestry related certificates such as Wildlife Danger Assessor, Pesticide Applicator
- Previous forestry work experience.

Closing Date: October 30, 2022

Please submit your resume and cover letter with confidence to silviforsafety@gmail.com
