

Manager

FSJ - Fort St. John

It's your time to lead! Come join our management team in our Fort St. John office.

Applications will be accepted at <https://bit.ly/3BF4SJC> until the position is filled.

Things We Are Looking For:

- Technical Skills & Field Expertise - Experience in the Natural Resource sector is preferred.
- Education in Natural Resource discipline: Forestry, Resource Management, or related.
- Communication - Across the organization as well as with external stakeholders.
- Leadership - You focus on growing and enabling your team, culture, and lead by example.
- Human Resource - You understand how to have open, 2-way conversations with your team and know when to ask for support.
- Relationship Management - You understand the value of building relationships throughout the organization and with your clients and community.
- Safety Management - You lead by example in all aspects of safety.

Experience:

- At least 2 years in a leadership role within the Natural Resource industry
- Professional Designation within a Natural Resource Sector is preferred, but not required.
- Possession of a valid class 5 driver's license and commitment to safe driving practices.

\$1200 Signing Bonus for 5+ year professional with designation.

We pride ourselves on maintaining a safe, respectful and fun work environment that promotes values such as teamwork, partnerships, professional accountability, adaptation, and work/life balance. All applicants must be enthusiastic workers and learners who thrive and excel in a team environment. Your dedication to workplace health & safety and possessing a positive attitude are critical to your role with our team. We offer competitive compensation, including a comprehensive benefits package for full-time employees, career and personal development opportunities, an employee mentoring program, and profit-sharing opportunities.

LEAD

A team of Natural Resource professionals with diverse backgrounds. Our people are experienced, enthusiastic, educated, and dedicated to our purpose of serving our crew, our clients, and our communities.

BALANCE

Sustainable development with environmental conservation from remote rural locations to reclaimed industrial sites to new urban development areas.

CULTIVATE

Both the talent and the opportunities to deliver world-class forest development services from the site level to the landscape level in the places we live, work, and play.

APPLY

Your scientific, technical, and professional skills as part of various project teams in areas such as timber development, resource road engineering, harvest planning, and forest operations management.

STRENGTHEN

Your business management skills in leadership, teamwork, human resources, finance, planning, project management and business development.
