Forest Hydrologist - Southern Interior Woodlands

Williams Lake, Kamloops, or Vernon, British Columbia

Our **Forest Hydrologist** plays an important role in protecting water resources and supporting responsible, sustainable forest management across Tolko's British Columbia operations. You will manage the Woodlands Watershed assessment program, maintain and improve the Watershed risk management framework, and work closely with Woodlands teams, consulting hydrologists, government, First Nations, and other stakeholders. Read on to learn how you can join our team and make an impact!

We're looking for a Forest Hydrologist for our Southern Interior Woodlands Division. The Southern Interior Woodlands Team manages Tolko's tenure and fibre supply in the Southern Interior of British Columbia, covering an area of 953,447 hectares. We are dedicated to sustaining these areas to the benefit of all who live and work there. While there is flexibility in where the position is based, most of the work will take place in the Southern Interior of British Columbia.

Our ideal candidate has the following qualifications:

- A strong commitment to working safely.
- Registered with an accredited professional organization.
- A university degree or technical diploma in Hydrology.
- Class 5 driver's license in good standing is required.
- Familiarity with Forestry Legislation and land base constraints applicable to forest development planning in the Interior of British Columbia.
- Minimum of 5 years of experience relevant to watershed processes and forest hydrology.
- Strong interpersonal, written, and oral communication skills.
- Possess a positive attitude and high degree of motivation.
- Demonstrated attention to detail and a willingness to learn.

We value diversity at Tolko and know that experience and knowledge come in many

forms. Even if you don’t have all the qualifications above, please apply. We would love to hear your story and have you grow with us.

In this role you will:

- Supervise and oversee field personnel while maintaining safety standards.
- Interact with various teams and build strong relationships with the people you work with.
- Support Tolko’s objectives for safety, environment, production, cost and quality.
- Perform work both in office and in the field.
- Travel periodically across the southern interior of BC as duties may span across the communities of Kelowna, Vernon, and Kamloops.

So, what’s in it for you?

- You’ll take on an exciting new challenge with supportive team members.
- You'll earn a competitive salary based on your skills and experience. The expected base salary range for this position is $95,250 to $127,000 per year.
- You’ll be eligible to participate in Tolko’s bonus program.
- You’ll be eligible for excellent benefits and access to our retirement plan, so you don’t have to choose between your bottom line and your wellbeing or your future.
- You may also be eligible for relocation support including community connections so you can live (and play) where you work.
- You’ll be part of a positive, innovative, and inclusive work environment.

If you want to work in a sustainable, future focused industry, there is no better place than Tolko. Our family has been producing innovative forest products for over 65 years. Our focus remains on sustainably managing our forests and our business for upcoming generations.
