

## Forest Road Supervisor

### Position Overview:

We are seeking a skilled and adaptable Forest Road Supervisor to join our dynamic team. The ideal candidate will have a strong background in forest roadwork and supervising projects. The ability to work effectively and safely in the field with challenging terrain and weather conditions is expected. This role requires a willingness to travel, including potential assignments in Scandinavia, and the capability to work both independently and as part of a team.

### Key Responsibilities:

- Design and plan forest roads, considering challenging terrain and environmental constraints.
- Conduct field work to gather data and ensure design feasibility as well as layout.
- Utilize GIS software for mapping and spatial analysis.
- Prepare and manage project budgets and cost estimates for project manager.
- Develop basic project schedules to monitor and ensure timely completion.
- Navigate permitting processes and ensure compliance with environmental regulations.
- Communicate effectively with clients and stakeholders to ensure project alignment.
- Supervising field Forman and coordinate with contractors and consultants.

### Qualifications:

- Degree in Forestry Engineering, or a related field. Forest Technicians diploma and/or equivalent experience will also be considered.
- Proven experience in forest/Right of Way Road design and construction.
- Strong proficiency in GIS and related software.
- Ability to perform field work in diverse and challenging environments.
- Willingness to travel, including international assignments.
- Excellent computer skills, including proficiency in office suite software.
- Ability to work independently and within a team environment.
- Strong communication skills and the ability to manage client relationships.
- Knowledge of budgeting, cost estimation, and basic project management.
- Familiarity with road building equipment and techniques and communicating effectively with Forman and operators.
- Understanding of permits, environmental regulations, and compliance requirements.
- Please state if you have an EU passport or any eligible EU working permits this may be a definite advantage for our European projects.

**We Offer:**

A challenging and rewarding role in a diverse and dynamic environment.

The opportunity to work on projects with significant environmental and societal impact.

Competitive salary and benefits package.

Opportunities for professional development and travel.
