

2202 McGowan St.
Enderby, BC
V0E 1V2

Woodford Forestry Services Inc. is a growing company operating in the Okanagan and Shuswap areas. Enderby is centrally located between Vernon and Salmon Arm on the beautiful Shuswap River. We are looking for a highly motivated and skilled individual to fill the following positions:

Senior Forest Technician:

The Senior Forest Technician will provide leadership, technically and personally, for forest development projects both new and ongoing. The successful applicant will take a lead role in all aspects of forest development projects and be responsible for but not limited to:

- Crew supervision and quality assurance.
- Provide excellent client relationship building.
- Field and office duties related to full phase forest development projects.
- Work independently and in crew environment with an attitude towards safety.

Required Skills and Experience:

- Three years of road and cut block layout experience at a senior level. Cable and steep slope harvesting layout experience an asset.
- Stand evaluation, volume, log product, and value estimation skills.
- Timber Cruising experience an asset.
- Good computer and technical writing skills.
- Experience working with Lidar data.
- Registered with the ABCFP.

Timber Cruiser:

- One year working in a head cruiser capacity.
- Create cruise plans, and final compilations.
- Achieve production and quality effectively.
- The ideal candidate will be highly motivated, have a safe work attitude, and a willingness to mentor junior staff.
- Off season will join development team.

WFS offers competitive wages, benefits and flexible environment allowing team members to balance their home / work life and grow as professionals.
