

2202 McGowan St.
Enderby, BC
V0E 1V2

Celebrating 10 Years!

Woodford Forestry Services Inc. is a growing company operating in the Okanagan and Shuswap areas. Enderby is centrally located between Vernon and Salmon Arm on the beautiful Shuswap River.

Woodford Forestry offers:

Benefits package
Gear allowance
Paid training.

Flexible environment allowing team members to balance their home / work life.
A broad range of projects and small crew size, providing mentoring and rapid career growth opportunities.

We are looking for happy people to fill the following positions:

Senior Forest Technician:

The Senior Forest Technician will provide leadership, technically and personally, for forest development projects both new and ongoing. The successful applicant will take a lead role in all aspects of forest development projects and be responsible for but not limited to:

- Crew supervision and quality assurance.
- Provide excellent client relationship building.
- Field and office duties related to full phase forest development projects.
- Work independently and in crew environment with an attitude towards safety.

Required Skills and Experience:

- Three years of road and cut block layout experience at a senior / supervisory level. Cable and steep slope harvesting layout experience an asset.
- Stand evaluation, volume, log product, and value estimation skills.
- Good computer and technical writing skills.
- Experience working with Lidar data.
- Registered with the ABCFP.

Intermediate / Junior Forest Technicians:

As a Forest Technician you will work primarily in the field completing and assisting with all aspects of forest development projects working towards senior level responsibilities.

- Work independently and in crew environment with an attitude towards safety.
- Post Secondary Forestry education or related experience. Registered or eligible for registration with the ABCFP. Sponsorship opportunities available.
- Cutting permit development: Block and Road layout and associated assessments.
- Forest sampling: Timber Cruising, Waste and Residue surveys.
- Silviculture Surveys.

Silviculture Professionals:

We are looking for an experienced Silviculture professional(s) to head up new opportunities within WFS.

Field surveys will be required as well as completing all required office deliverables to client specifications and required timeframes.

Qualifications

- Registration with ABCFP as SAS, RFT, or RPF.
- Knowledge of all types of silviculture surveys, compilation, and reporting procedures.
- Knowledge of BC's Legislative framework.
- Valid Driver's license.
- Field orienteering skills. (Map, compass, Ipad with Avenza Maps)
- You can work independently and in crew environment with an attitude geared towards safety.
- Off season and downtime can be used helping development crew.
