

WOODFORD FORESTRY SERVICES

2202 McGowan Street

Enderby, BC

V0E 1V2

Woodford Forestry Services Inc. is a growing company operating in the Okanagan and Shuswap areas. Enderby is centrally located between Vernon and Salmon Arm on the beautiful Shuswap River.

We are looking for a highly motivated and skilled individual to fill the following position:

### **GIS / Mapping Technician**

The GIS Mapping Technician will provide a high level of GIS and technical expertise. As the GIS professional you will be the hub of high-quality mapping products and data deliverables to our clients.

Our ideal candidate will understand cartographic, geoprocessing and spatial analysis tools within the ArcGIS environment, be able to leverage data driven pages or other methods for automated map production workflows, follow best practices for data management (online and offline).

#### **The GIS Technician will be responsible for:**

- Managing all mapping data and deliverables.
- Creating maps and tile packages to be taken offline by field crews.
- Processing and creating maps and other deliverables from Lidar data.
- Visual quality analysis projects.

#### **Required Skills and Experience:**

- 2-5 years of Experience working with ESRI products.
- Have experience with ESRI Software such as ArcGIS Desktop, ArcPro, ArcGIS Online, and Collector for ARCGIS.
- Experience with mobile data collection processes and management.
- Experience creating, managing, and publishing map services.
- Experience with Lidar data.
- Experience working with LRM and Cengea. 6666
- Experience with Digital Terrain Modelling.

#### **Woodford Forestry offers:**

Flexible environment allowing team members to balance their home/work life. A diverse range of projects and a small crew size, providing mentoring and career development opportunities.

- Hourly \$25 - \$31 per hour
  - Benefits Package.
  - Paid Training.

This is a part time to full-time position.
