

2202 McGowan Dr.
Enderby BC
V4Y 4A9

Woodford Forestry Services Inc. is a growing company operating in the Okanagan and Shuswap areas. Enderby is centrally located between Vernon and Salmon Arm on the beautiful Shuswap River. We are looking for a highly motivated and skilled individual to fill the following position:

GIS / Mapping Technician:

The GIS Mapping Technician will provide a high level of GIS and technical expertise. As the GIS professional you will be the hub of high-quality mapping products and data deliverables to our clients.

Our ideal candidate will understand cartographic, geoprocessing and spatial analysis tools within the ArcGIS environment.

The GIS Technician will be responsible for:

- Ensure data integrity and quality through the management of GIS data standards.
- Collaborate with forestry professionals and field staff to identify GIS needs.
- Managing all mapping data and deliverables.
- Creating maps and tile packages to be taken offline by field crews.
- Processing and creating maps and other deliverables from Lidar data.
- Visual quality analysis projects.

Required Skills and Experience:

- 2-5 years of Experience working with ESRI products such as ArcGIS Desktop, ArcPro, ArcGIS Online, and Fieldmaps for ARCGIS.
- 1 year experience with Land Resource Manager (LRM).
- Detailed knowledge of GIS concepts, including projections, cartography, spatial editing, etc.
- Experience creating, managing, and publishing map services.
- Strong problem-solving skills and ability to work independently.
- Knowledge of BC interior forestry practices and operations.
- Operational forestry experience or education is an asset.
- Experience with Digital Terrain Modelling.

This is a full-time position. WFS offers competitive wages, benefits and a flexible environment allowing team members to balance their home / work life and grow as professionals.

Salary Range: \$28 - \$35 / hour.
